DOT-SP 11406  
(TENTH REVISION)

**EXPIRATION DATE: 2023-05-31**

(FOR RENEWAL, SEE 49 CFR 107.109)

1. **GRANTEE:** Shippers and carriers of liquid or solid waste (henceforth called "waste") with low levels of external radiation who are approved by state radioactive material control officials registered with the Office of the Executive Director of the Conference of Radiation Control Program Directors (CRCPD), Frankfort, Kentucky
2. **PURPOSE AND LIMITATION:**
  - a. This special permit authorizes the one-way transportation in commerce by highway or rail of shipments of liquid or solid waste (hereafter referred to as "waste") in accordance with the conditions and requirements of set forth below, when:
    - (1) During or at the conclusion of transportation or during inspection of the shipment following its receipt, the waste has been found to contain unexpected and unidentified radioactive material or contamination; and
    - (2) The waste is transported to a location determined by the authorizing state official to be more appropriate for proper characterization and/or disposition of the discovered radioactivity.
  - b. This special permit provides no relief from the Hazardous Materials Regulations (HMR) other than as specifically stated herein.
  - c. The safety analysis performed in the development of this special permit only considered the hazards and risks associated with transportation in commerce.

# E-47 Committee White Paper on Fusion

*Conceptual model of a fusion plant.*

◦E-47 Committee on Commercial Nuclear Power Chaired by Jeff Semancik developed a white paper on risk-based approach for state regulation of commercial fusion facilities.

◦The CRCPD Board of Directors approved the White Paper last month and it is available on the CRCPD web pages.

◦Jeff Semancik provided an overview of the White Paper yesterday morning.

# NRC Advance Act and Executive Orders

- CRCPD continues to engage with NRC regarding emerging initiatives from the Advance Act.
- CRCPD has participated in several public meetings and provided comments on Executive Order 14300 Section 5(b).
- CRCPD continues to remain engaged with NRC on Emergency Preparedness topics particularly those regarding advanced reactor design, small modular reactors and microreactors.
- States need to remain nimble to react quickly to changes that would affect regulations.
